

## MG-10

### Compact design

Mini portable, easy to carry around

### Functions completely replace mechanical gauge

Completely replaces all functions of a mechanical dual gauge and additionally provides leakage test and vacuum measurement functions

### Higher precision

Advanced ceramic sensors and digitizing technology allow the MG-10 to easily outperform traditional mechanical gauges in terms of measurement accuracy

### Sturdy and drop-proof

Accidental dropping of the instrument during use will not affect the measurement accuracy or normal function at all

### 2 times over-pressure range

Can withstand more than 2 times the rated range of pressure without damage to the sensor, do not have to worry about “hit the needle” problem

## Specifications

Item No.	MG-10
Measurement range	-14.5-500 psi/-14.5-800 psi
Pressure display resolution	0.5psi
Pressure measurement accuracy	±0.5%FS
Pressure Unit	psi、bar、kg/cm <sup>2</sup> 、inHg、kPa、MPa
Operating temperature and humidity.	-10~50°C; 35%~85% RH
Battery life	6 months
Battery	3 # AAA
2 Channels	Red, blue
Maximum working pressure	800 psi
refrigerant	88 types

รับประกันตัวเครื่อง 1 ปี
