

MG-100A

(Digital Manifold with 2 temperature probe clamps)

Extra-large LCD screen, All parameters are displayed.

Automatic calculation of super-heating and sub-cooling

Overload capacity of 2x range (10Mpa)

A2L Flammable Refrigerant Warning Reminder

APO Auto Power Off gives you longer battery life.

Key function design for zero-order menu

88 refrigerant data and continuously updated

Quick search for common refrigerants

Magnetic hooks for easy storage

Specifications

Item No.	MG-100A
Pressure Range	14.5-800psi
Accuracy	±0.5%FS
Resolution	0.5psi
Temperature range	-50°C~150°C/-58°F~302°F
Temperature Accuracy	±0.5°C/±0.9°F
Temperature resolution	0.1°C/0.2°F
Pressure units	kPa,MPa,psi,inHg,bar,kg/cm2
Temperature units	°C,°F
Operating temperature and humidity	-10~50°C; 35%~85% RH
Battery	3 # AA
2 Channels	Red, blue
Maximum working pressure	800 psi
refrigerant	88 types

รับประกันตัวเครื่อง 1 ปี
